In ew:Docket No.2007-359-W/S

Dear Mr. Butler.

If above hearing is scheduled, please consider my personal
request. Since I have a grinder pump, which I purchased, and
was installed by the utility company for Foxwood Hills in 1997,
known as Mountain Bay Utility Co. Inc., I feel my grinder pump
is adequate for my usage. It has a red light that comes on
when grinder pump is not operating effeciently. therefore, I
should not be required to have an inspection by "TESI". I
prefer to call my own plumber for repairs.

My property is posted, and I do not wish "TESI" to TRESPASS.

I feel "TESI" received a rediculous increase to provide water
and wastewater service in Foxwood Hills, Oconee County, South
Carolina, Docket No. 2004-90 W/S by way of Order No. 2006-
292(A) dated May 9, 2006. We property owners of Foxwood Hills
were not represented properly, by Asby Fulmer at this hearing.
Had the facts been presented to Public Service Commission of
South Carolina, that "TESI" was not depositing the annual
enhancement fee of $60.00 for each lot that is not being
occupied into the operating and Maintenance Account, excluding
as Utility Revenue. I do not believe Public Service Commission
would have granted "TESI" this rediculous increase.

Please forward to me a price that is being considered to pay
"TESI" for inspection, and how often grinder pumps are required
to be inspected.

Thanking you in advance for your cooperation, I am,

RECEIVED

Tel. 864 647 6496

P.S. I will agree "TESI" does need to do a free inspection of
all grinder pumps in the Foxwood Hills Subdivision. Some are
not working, and running sewage on the ground, in the woods.
